

Join Ultrahack innovation challenges, Gain business opportunities!

What? From pre-hack mentorship and a hackathon weekend to after-hackathon piloting with partner companies, Ultrahack is the innovation platform for your startup.

Check out these great challenges of Sprint I 2019:

1. [FIN-EST Cross-border Service track](#)

Join Nordic Institute for Interoperability Solutions (NIIS) to create cross-border services between Finland and Estonia utilising open data and data exchange layer, [X-Road](#).

The prize is **€5000 cash** and the opportunity to **become X-Road cooperator** or **employed as a project team** for piloting.

2. [Health track](#)

Merck Sharp & Dohme Corp. and Helsinki University Hospital seeks your solutions on **improving the digital healthcare journey of cancer patients**, especially melanoma, the most dangerous type of skin cancer.

The prize is **€5000 cash** and **piloting opportunity**.

3. [Hackers Against Exclusion track](#)

Drugs, alcoholism, unemployment and lack of education are a few of the many reasons excluding a person from having a healthy life and being a constructive part of the society.

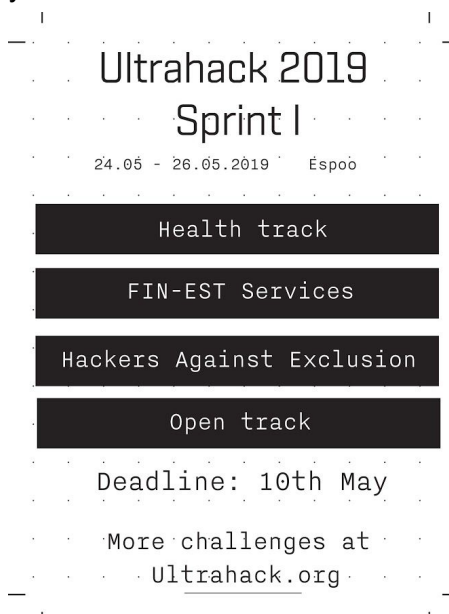

Touch the lives of thousands of socially excluded people by developing Artificial Intelligence solutions for social inclusion services. Besides the glory of impactful project, the winners take away **€10,000 cash** and **piloting chance with Finnish Ministry of Finance and VAKE**.

4. [Open track](#)

Wish to showcase a project and it doesn't quite fit in any aforementioned challenges? The much competitive Open track might be for you.

APPLY before 10 May: <http://bit.ly/UH2019Sprint1-1>
